Re: Municipal Separate Storm Sewer System (MS4) Inspection Report Second Version, Permit
Number –COS000005

Dear Mr. Willard:

Per the Colorado Department of Transportation's (CDOT's) request, the Environmental Protection Agency (EPA) is providing you the enclosed second version of the inspection report for the EPA's inspection performed of CDOT on March 30 through April 2, 2015. Only the body of the report is enclosed, because the attachments did not change. CDOT requested this second version make some references to some individuals at CDOT more generic. This was because CDOT was concerned that circulating the original report would create issues with working relationships within CDOT. This does not eliminate the first version of the report from the official record. Both versions of the report are part of the official record.

Please contact me at 303-312-6362, or dejong.stephanie@epa.gov if you have any questions.

Sincerely,

Stephanie DeJong
